WORK EXPERIENCE

Front-End Developer | Enaya E-Commerce Platform

Remote | Freelance / Project-Based |

Jan 2026 – Present

- Developed a full-featured e-commerce platform using React.js, Tailwind CSS, Zustand, Axios, and REST APIs, covering product discovery, cart, checkout, authentication, and customer workflows.
- Developed a dynamic admin dashboard for managing products and website content, including dynamic homepage and hero sections.
- Integrated an AI-powered skin analysis feature for analyzing user-submitted images and generating personalized results.
- Implemented responsive layouts, dynamic data rendering, state management, and persistent application data.

Live: <https://www.enayak.com/> | GitHub: <https://github.com/Ahmed-Ghallab/enaya>

Front-End Developer | Fassla Software

Cairo, Egypt |

Feb 2025 – Jan 2026

- Developed responsive web interfaces using HTML5, CSS3, JavaScript, and React.js.
- Translated UI/UX designs into reusable React components and responsive layouts.
- Collaborated with team members to implement features, improve existing workflows, and resolve front-end issues.
- Used Git/GitHub and component-based development practices to maintain clean and scalable code.

Trainee Frontend Developer | Sprints.ai

React & Next.js | Cairo, Egypt |

Oct 2024 – Jan 2025

- Built web applications using React.js, Next.js, Tailwind CSS, API integration, and state management.
- Applied responsive UI patterns, reusable components, and Git-based workflows.

Front-End Developer | Reflex Software

Cairo, Egypt |

Jan 2024 – Sep 2024

- Built responsive web interfaces using React.js, JavaScript, HTML5, and CSS3.
- Developed reusable UI components and implemented responsive, user-focused designs.

SELECTED PROJECTS

Premium Wedding Platform — SaaS Digital Invitation System

Next.js | React | TypeScript | Supabase

- Developed a SaaS platform for creating and managing personalized digital wedding invitations.
- Built dynamic customization for templates, colors, content, and real-time invitation preview.
- Implemented unique invitation links, QR codes, RSVP workflows, guest attendance management, and guest messages.
- Live: <https://premium-wedding-platform-psi.vercel.app/> | GitHub: <https://github.com/Ahmed-Ghallab/premium-wedding-platform>

Tadweer IOMS — Recycling Management Platform

React | TypeScript | Supabase

- Developed a dynamic recycling and operational management platform with responsive, data-driven interfaces.
- Integrated Supabase for database functionality and built reusable React/TypeScript components.
- Live: <https://tadweer-ioms.vercel.app/> | GitHub: <https://github.com/Ahmed-Ghallab/tadweer-ioms>

Ghalab Tractor – Business Web Platform

Next.js | React | TypeScript

- Developed a responsive business website using Next.js, React, and TypeScript.
- Built reusable components and responsive layouts for product specifications, business information, and digital content.
- Live: <https://ghalab-tractor.vercel.app/> | GitHub: <https://github.com/Ahmed-Ghallab/GhalabTractor>

Oryx Investments — Real Estate Website

React | Tailwind CSS | JavaScript

- Developed a responsive real-estate website using React, Tailwind CSS, and JavaScript.
- Implemented component-based architecture and modern responsive UI patterns.
- Live: <https://oryxinvestmentsegypt.com/> | GitHub: <https://github.com/Ahmed-Ghallab/realestate>

ADDITIONAL PROJECTS

SprintsFinal – Store: E-commerce application with authentication, product categories, cart, and checkout.
F&B Shop: HTML5, CSS3, Vanilla JavaScript — Responsive multi-page e-commerce interface.
